We are planning to create a movie/video of T. A. history, so we could present to our young generations and outside world, similar to the " 400 Year History of Taiwan", which is planning by a

famous movie director in Taiwan. If you know someone or groups, who can help prepare this movie project, please contact us.

The son and grandson of a first generation T. A. visited T. A. Archives Center/Irvine recently as shown in the photos below:

Edward(son, left) and Kyle(grandson, right) came to view collections about their father/grandfather

We need to have a better place for our future generations where they could learn about our 70 year T. A. history and have a memorable and enjoyable visit. We hope you can help us to make it.

- **A Series of Books Related to T. A. History:**

We need to print a series of many books related to T. A. History together, such as our life stories, summer conferences, international festivals and heritage week, etc... With a big set of historical books about us, it can further solidify us as one of the important ethnic minorities in the U. S.

- **Volunteers Needed for Collecting Historical Information:**

There are many books, magazines, newsletters where we can find information related to Taiwanese American history. We had gone through Taiwan Tribune (台灣公論報) page by page and found much historical information and posted on our website. There is still some information to be dug out

from many publications by T. A. organizations. We hope you can help us do this article reviewing job.

This will help historians and scholars worldwide to study and appreciate the scope of our history.
